

SAFETY FIRST, QUALITY FIRST

Marine life jackets for marine vessels, marine police life jackets are vest-type life jackets with inherent buoyancy combined with inflation and manual inflation, and a personal life-saving equipment for marine fishing vessels and inland river fishing operations. The marine life jacket of the ship adopts a vest-type vest structure, which consists of a vest main body kapok bag, air bag, manual inflator, carbon dioxide bottle, whistle, reflective film, lithium battery position lamp and other accessories. The ship's marine life jacket is made of nylon orange TPU composite cloth bag and kapok bag. Equipped with mouth inflatable hose, manual inflator, carbon dioxide cylinder, lithium battery position indicator, call whistle, salvage sling and other attachments, with large buoyancy, light weight, strong adaptability, safe floating, good rescue .

The marine police life jacket has a buoyancy of 15.5 kg (the basic buoyancy of the kapok bag is 7.5 kg, and the auxiliary inflatable bag is 8 kg of floating country). After wearing the water, it can automatically flip in 5 seconds, and it is at a recoil of 20.50 degrees, and the mouth is safely floating 12 cm above the water surface.
